

INNOVATIVE PROTECTION ON ONE HAND, COMFORT ON THE OTHER

SOFT AND DURABLE, STRONG AND COMFORTABLE, new MedHandler® Powder-free Nitrile gloves combine the best characteristics of latex and nitrile into an all-purpose exam-grade product that provides long-term value.

Unlike conventional nitrile gloves, MedHandler® Powder-free Nitrile gloves work with your hands as they move, which provides the comfort of latex for extended-time tasks without the risk of allergen transmission. MedHandler® Powder-free Nitrile gloves are also engineered with enhanced tactile sensitivity for excellent wet and dry grip, making it the ideal all-purpose glove for medical professionals.

1. COMFORTABLE FIT

A relaxed fit that works with your hands as they move.

2. BEADED CUFF

Ensures easy, and quick, donning and removal.

5. FINGERTIP SENSITIVITY

Pebble texturing provides excellent grip and dexterity in both wet and dry situations.

4. THE RIGHT GLOVE

Blue color is easily identifiable in a multi-glove environment.

3. DURABILITY

Exceptional puncture resistance plus chemical resistance that latex gloves can't provide.

MedHandler® Powder-free Nitrile gloves deliver the reliable strength, durability and comfort medical professionals need in a relaxed-fit nitrile exam-grade glove.

The optimal balance of comfort, strength, protection and value...

COMFORT & DURABILITY IN AN EXAM-GRADE GLOVE

Advanced proprietary formulation makes it possible

Technology advancements in nitrile manufacturing combined with our proprietary, next-generation formulations have made incredibly durable, yet soft, more supple nitrile gloves a reality.

Latex allergens pose grave risks.

New MedHandler® Powder-free Nitrile gloves eliminate the risks of latex protein exposure that can cause allergic reactions for both medical professionals and patients.

NO LATEX PROTEINS

COST EFFECTIVE

An exam-grade glove that makes financial sense.

By combining an incredible resistance to punctures, tears and chemicals with enduring comfort, new MedHandler® Powder-free Nitrile gloves provide a far greater value over thicker nitrile gloves and less-durable latex gloves. These gloves have the best Performance-to-Cost advantage out of any glove offering in our MedHandler line.

MedHandler® Nitrile Exam-Grade Gloves

- Meets or exceeds 2.5 Accepted Quality Level (AQL)
- Blue color is easily identifiable in a multi-glove environment
- No natural rubber latex to minimize risk of allergic reaction
